Policy in Mexico.

"What are the realities that face used in Mexico exist the potentialities of civilization. In her wealth, her history, her schools, her religion, her nuceds, her very suffering and patriotism lie the indestructible seeds of progress. To have conquered Mexico would have seated death at the American fireside. It would have destroyed our prosperity and added hundreds of millions of taxation to the burdens of the mation. It would have planted distructs and hatred of the United States in every South American republic. It would have planted distructs and hatred of the United States in every South American republic. It would have planted distructs and hatred of the United States is the world. The United States is the world. The United States is the world and men are made into self-governing men. In America justice has made its greatest progress, because it is progress in which all men have a part. That form of government which affords the fullest opportunity for happiness and comfort is destined to be the universal form. Such is the resistless syllogism of progress. War cannot stop its inevitable march. The opinion of one man. The best opinion of one man. American opinion is embodied in a man of peace. American opinion is marching through the world.

American Principles Untarnished.

American Principles Untarnished.

"When the imperialism of Europe cast the iron dice of destiny America threw the moral dice of destiny. America staked the principles of her justice. There they stand in untarnished integrity in the gaze of a stricken world. The intelligence of men grasp the meaning of America. Her example will readjust the relations of men everywhere. The aspirations of men are for freedom. Men and women can and should rule themselves war will disappear. The hand of Divinity has so written it in the needs and necessities of humanity made in its image.

"America, prosperous, peaceful, blessed, is so because the inscrutable purposes of God intended it. The contrast between Europe in flames and suffering and the United States peaceful and prosperous is the divine contrast. By saving the American system civilization is saved. The peace of America demonstrates the folly of war. The principles of democracy furnish the means of avoiding and preventing war. The universal intelligence of men decrees that the war now devastating Europe shall be the last war. It will end in a world's league of peace.

The Democrats, Mr. James said, had enacted a tariff law under which monopolies were curbed and unexampled prosperity attained; a banking law taking the money control out of the hands of an oligarchy and making panics no longer possible, and many reform measures of lesser importance.

The chairman declared President Wilson's Mexican policy and his course in protecting American rights against encroachments of Eu-opean helligrents had shown all the world that the President "neither bullies the weak nor fears the strong."

In a concluding appeal for the triumph of patriotism above politics. Senator James said the renomination of such a President in a partisan convention ought not to be necessary, and that to discredit him might palsy the hand that could write the peace treaty of the world.

Real in two ways. Real in that it is the finest marimba band in the world. Real in that the Victor Records are absolutely true to life.

The real marimba band. The band that introduced the marimba into the United States. The band that was one of the big musical sensations at the Panama-Pacific Exposition. The Hurtado Brothers Royal Marimba Band of Guatemala.

The Hurtados are masters in performing on this curious wooden instrument. They know music. And they know that only Victor Records can bring into your home the music of the marimba with all its peculiar fascination-just as real as when they actually play it. For that reason they have decided in the future to make records only for the Victor.
